Itinerary

Sunday

Transfer from a defined picking point to Le Phénicien moored close to the Avignon ramparts. Some free time to relax or visit on your own the city. Our first dinner on board gives an indication of the high standard of cuisine that will be served during the cruise and the accompanying wines have been specially chosen from top-notch local vineyards.

Monday

History and wines are our centers of interest today. We first take a guided tour to learn about the religious and artistic importance of the city's prestigious past with the palace of the Popes visit. Then a first nice lunch cruise takes us closer to one of the best cellars of **Châteauneuf-du-Pape** where we have a guided visit followed by a wine tasting. This evening we sail to **Villeneuve lès Avignon** where we will stay overnight. The wines tasted in the morning are back on the table at dinner!

Tuesday

Enjoy the morning with "**Le Pont du Gard** " the gigantic Roman aqueduct", its recently made-up site and its modern museum.

France's Impressions Voyages

The ultimate travel experience in France

After this intriguing guided visit we get back to the barge and sail down to [Vallabrègues](#) a quiet and charming little port where it is good to rest, have a bike ride or play the pétanque under some plane trees.

Wednesday

Spots of legend are many in the surroundings and after breakfast, we will visit the charming mediaeval village of [Les Baux de Provence](#) and take some time to shop around! Back to the barge we pass through the huge 36 feet high lock of [Beaucaire](#) and sail down to Arles, the open-air Museum of Provence.

Thursday

Our guided visit in [Arles](#) will delve deep into antiquity and, at the same time, unravel the joys and despair of [Van Gogh](#) who painted 300 canvases during his year here in 1888. The most impressive navigation is for today heading for the Camargue! We cruise the Rhône River, the petit Rhône and the canal to reach the quiet and typical village of Gallician.

Friday

Our last day of excursion will be in the wild [Camargue](#). There we reach a manade, a typical ranch, where the gardians à cheval, the local authentic cowboys, show us how they tend the herds of bulls on their superb white horses. Our final destination is [Aigues-Mortes](#), a 14th century walled city rising from a flat landscape from which St Louis set sail on his Holy Crusades. The Camargue never fails to surprise and welcomes us for our farewell dinner!

Saturday

After breakfast, disembark Le Phénicien to transfer to your departure point.

This itinerary is run in reverse on alternate weeks and is subject to change at any time.
